Project Type: New build Refurbishment

Windows and doors installed from 15/06/22 will be subject to revised building regulations. It is the installer's responsibility to ensure that the products are compliant with the regulations for where they will be installed. For more information visit www.quickslide.co.uk/blog/guides/2022-changes-to-building-regulations-for-doors-and-windows/

Trickle Vents

From the 15/06/2022, the Building Regs state that trickle vents are required on practically all glazing elements. We will include as many trickle vents as feasibly possible as standard. On aluminium flush windows, trickle vents are fitted into a 35mm add-on above the outer frame. If a certain rate of 'equivalent area' is required, please include instructions.

If trickle vents are not required, please tick below. Please note trickle vents cannot be retro-fitted.

Trickle Vents not required

PAS 24 Security Upgrade
