Project Type: New build Refurbishment

Please note, windows and doors are subject to Building Regulations. The regulations changed in 2022 and it's the installer's responsibility to ensure the products are compliant for their intended use where they're installed. Use our specification tool available at www.quickslide.co.uk/requirement-calculators/ to help you understand the product specification required to comply.

 Top
 Bottom

Trickle Vents

From the 15/06/2022, the Building Regs state that trickle vents are required on practically all glazing elements. We will include as many trickle vents as feasibly possible as standard. On aluminium sliding patio doors, trickle vents are fitted into a 42mm add-on above the outer frame. If a certain rate of 'equivalent area' is required, please include instructions.

If trickle vents are not required, please tick below. Please note trickle vents cannot be retro-fitted.

- Trickle Vents not required

Glazing

Glazed options come with Argon Gas and Toughened Glass as standard

- Unglazed
 Double Glazed
1.4W/m²K / 'B' DSER
 Double Glazed, Laminated
1.4W/m²K / 'C' DSER
