Project Type: New build Refurbishment

Please note, windows and doors are subject to Building Regulations. The regulations changed in 2022 and it's the installer's responsibility to ensure the products are compliant for their intended use where they're installed. Use our specification tool available at www.quickslide.co.uk/requirement-calculators/ to help you understand the product specification required to comply.

Trickle Vents

Link Vents

From the 15/06/2022, the Building Regs state that trickle vents are required on practically all glazing elements. Unless otherwise specified we will include trickle vents in pre-determined locations as standard. On aluminium doors, trickle vents are fitted into a 42mm add-on above the outer door frame. If a certain rate of 'equivalent area' is required, please include instructions.

If trickle vents are not required, please tick below. Please note trickle vents cannot be retro-fitted.

Trickle Vents not required

Couplers

Common Styles

Draw Your Own

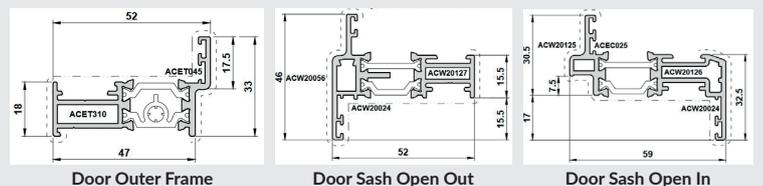

Special Instructions

Please include side and top lights if required.

Include horizontal and vertical bars as well as dimensions (mm) to determine bar locations if not equal spacing.

Please note that all horizontal bars will be 48mm transoms and vertical bars will be 25mm astragal bars.
